

E-Track Login Update

As of September 2, 2017 E-Track was upgraded to a new version which required everyone to enter their password in ALL CAPS the first time they logged in. Everyone was then required to re-set their password. You can use the password you previously had or create a new one.

The upgrade to E-Track also simplified the survey completion process in that you only need to click Submit, rather than the two steps that were previously required.

Also, when you log into E-Track it automatically takes you to your Activities page rather than your Dashboard.

There were some problems with surveys in September. You may have gotten reminders to complete your survey – after you have already completed it. We apologize for the confusing information that resulted from a glitch with the updated version. **Please be assured that your survey submissions were received and you will receive a training certificate for the session.** We are very sorry for the inconvenience and extra time this problem has caused you.

If you have any questions, please feel free to call Julie Hayden at (330) 379-1976. Thank you.
