

Father *Factor*

*An Overview for Staff, Fathers
and the Community*

Mission Statement

The Mission of the Father Factor committee is to create awareness and educate Summit County Children Services staff, fathers and the community about the importance of identifying and engaging fathers.

Vision Statement

We are committed to working with service providers in a collaborative effort to locate and promote resources for fathers. Through these advocacy efforts, we will offer hope and encouragement to fathers as we strive for permanency, safety and well-being for their children.

Father Facts

- Father involvement in schools is associated with higher likelihood of a student getting mostly A's. Children with more involved fathers experience fewer behavioral problems (www.fatherhood.org).
- Even from birth, children who have an involved father are more likely to be emotionally secure, be confident to explore their surroundings, and, as they grow older, have better social connections. (psychologytoday.com)
